Jobs, skills and my life story

Name: _____ Class: _____ Keep these pages open during both tasks.

1. Build a job explanation

先累積語言，再進行配對及說明。

Word bank	Words to reuse
Unit 1: qualities	calm, friendly, helpful, confident, honest, hard-working
Unit 2: skills and places	communication, imagination, location, modern, urban, rural
Unit 5: people	teammate, partner, classmate, neighbour, family
Unit 9: work	architect, nurse, chef, reporter, accountant, software developer; be part of a team

性格：冷靜、友善、樂於助人、自信、誠實、勤奮。技能與地方：溝通、想像力、位置、現代、城市、鄉郊。人物：隊友、伙伴、同學、鄰居、家人。

Job actions: design buildings; prepare food; care for people; write computer programs; report news; check financial records; manage a shop; teach students; build homes; clean spaces; design electronic devices; give emergency care.

Choose the sentence that fits the word

形容詞、動作及名詞需要不同句型。

Use	Sentence frame
Describe the job	A / An _____ is someone who _____.
Quality: adjective	A / An _____ needs to be calm / helpful / _____.
Action: verb	A / An _____ needs to communicate clearly / _____.
Skill: noun phrase	A / An _____ needs good communication skills.
Explain the reason	This matters because _____. They often work with _____.

Model: A nurse cares for people. Nurses need to be calm and helpful. They need good communication skills because they explain things to people and work with teammates.

Try the pattern before you sort

先完成短練習，口頭核對後再配卡。

1. A nurse needs to _____ calm. (be / have)
2. A reporter needs to _____ clearly. (communicate / communication)
3. A shop manager needs good _____ skills. (communicate / communication)

Task 1. Make the job spider

Use the spider mat and job / skill cards. Everyone prepares a different explanation.

Work together

小組共同完成，但每人都要準備自己的輸出。

1. In a group of four, read the job cards and choose four jobs. Put one in each job slot.
2. Choose two useful skill or quality cards for each job. Place them in its connected skill slots.
3. Explain each match. Ask a question if you disagree. Reuse a skill with a blank card if needed.
4. Each person takes one job, prepares a 45-60-second explanation and shares it.

Listen for the job and the priority

老師讀四個工作者線索；選兩位，記下職業、取向及聽到的詞。

Speaker	Job	What matters? + words I heard
____	_____	_____
____	_____	_____

Useful priorities: doing something I enjoy / making money / working close to home / being part of a team.

My explanation

用提示準備，不必逐字照讀。

My job: _____ What the person does: _____

Two useful skills or qualities: _____

They need these because _____

I would / would not like this job because _____

Ask your partner: Why does this job need that skill? Could another job need it too? What matters most to you in a job?

After sharing: My partner understood _____. One phrase I improved: _____.

2. Put your experiences into words

Use the event cards and the timeline mat. The events can be real or imagined.

People, places and feelings

用熟悉的詞把事件說得更具體。

Unit	Useful language
1: feelings	I felt nervous / excited / confident / happy / worried.
2: places	I moved to a new home. I lived in an urban / a rural area.
5: people	I met my best friend. I helped a neighbour. I worked with a teammate.
9: milestones	I graduated from school. I applied for a job. I decided on a career.

Show which past event was earlier

較早的過去事件：had + 過去分詞；較後事件：一般過去式。

Earlier: I met my best friend in 2020. Later: I started university in 2026.
Connected: By the time I started university, I had already met my best friend.
Another pattern: When I joined the team, I had already learned how to work with a partner.

Base verb	Past simple	Past perfect
start / move / join	started / moved / joined	had started / had moved / had joined
meet / give / win	met / gave / won	had met / had given / had won
become / do	became / did	had become / had done
learn / apply	learned / applied	had learned / had applied
speak / feel	spoke / felt	had spoken / had felt

Notice: Use the past perfect to look back from a past moment. With before or after, the past simple can also make the order clear. Do not put every event in the past perfect.

Try it aloud

先填空，再向同伴解釋先後。

1. By the time I started university, I _____ already _____ my best friend. (meet)
2. When I gave my first presentation, I _____ never _____ in front of a large group. (speak)
3. After I moved to a new home, I _____ a neighbour. (help)

Task 2. Tell a life-event story

Use five past events. Add ages or dates; keep the events before NOW on the arrow.

Arrange, discuss, prepare

先排事件，再討論，最後每人分享。

1. Choose five event cards or write your own. Order them on your timeline and add ages / dates.
2. Point to two events: which happened first? Link them with a past-perfect sentence.
3. Ask each group member about a person, place or feeling. Then choose a second pair of events.
4. Prepare a 45-60-second story. Each person shares; listeners check the event order.

Ask: What happened first? How old were you? Where were you living? Who was with you? How did you feel? What had you already done by then?

My five-event story

可用關鍵詞準備，分享時指著時間線。

When I was / In _____, I _____.

Later, I _____.

By the time I _____, I had already _____.

When I _____, I had _____ .

I felt _____ because _____.

Check with a listener

聆聽者檢查先後是否清楚，再給一項具體建議。

[ ] Five events are in a clear order.
[ ] I used two earlier / later connections with the past perfect.
[ ] I included a person, a place and a feeling.
[ ] I revised one phrase after feedback.

Language I want to keep: _____

My improved sentence: _____
